**Subject:** RE: Work Assignment request

Hi Mike,

Will this be oversight or technical assistance? Let me know which one. I also need an estimate of hours and dollars as we are monitoring the ceiling of the CDM contract closely. I will need an IGCE, SOW and now a new item is that the QA department needs to review and sign off on the QARF form and SOW before we can even send it to the CO. So it depends on the timing and whether or not this will be in place by Oct.

Also, I will still need the Libby Information Center work transitioned to the ACOE by the end of the year. Again, I need to make sure we have enough ceiling to be able to put new work on this contract and keep the other work moving. So moving that work to the ACOE will help in making sure we are able to accommodate this work. Any questions, please let me know. Thanks.

**Subject:** Work Assignment request

Hi Jodi,

We had our sit down negotiation with CFAC/Glencore yesterday and we made some real good headway. I think we will be able to come to an agreement on the AOC. CFAC's contractor has put together a RI/FS work plan and SAP, and I would like to get some assistance reviewing this document. I was talking with Joe Vranka and he stated we should be able to open up a WA for this review and I will also be asking CDM-Smith, after the review comments, to probably join me on our meeting in Oct. to discuss comment and review with CFAC people. We may even want to talk about field over-site and if it is too early to add that in or not?

Thanks  
Mike
